

Waste and recycling collections cancelled today

LATEST UPDATE | FEBRUARY

With the potential for further snow later today and into Saturday, waste collections in the Fairford and Lechlade areas have been cancelled today Friday 1 February. Forecasts from the Met Office currently show that the weather will improve next week.

Crews from our environmental services provider Ubico Ltd will aim to carry out their usual rounds next week and will also do catch up collections in the areas missed today. The catch up may take a few days (Monday 4 February, Tuesday 5 February and possibly some of Wednesday 6 February) so please leave all refuse bins, recycling boxes and bags, kitchen caddies and garden waste bins (if subscribed to the service) at the kerbside as usual (by 7 am at the latest) until they are picked up.

To keep up with the latest information on our waste and recycling collection schedules please see [our website \(opens in a new window\)](#) or phone the waste hotline 01285 623123 during normal office hours (Monday to Friday).
